EVALUATION SERVICES AND FEES

To request an evaluation, fill out the application form. Detailed directions are available online.

General Statement

Cost: \$75

The general statement is a general overview of a candidate's educational background. EEI assesses foreign educational credentials and determines their U.S. equivalent. This evaluation may be used for immigration, admission to U.S. undergraduate and graduate programs, to join the U.S. Armed Forces, and state and federal licensure. Each credential will be described and its U.S. equivalent given in the general statement.

Course-By-Course Evaluation

Cost: \$150

This evaluation includes a general statement but is more comprehensive. In addition to a general assessment, the course-by-course evaluation identifies each completed subject and provides the U.S. credit equivalent. The report is a listing of each course for which the candidate received credit.

Grade Point Average (Add-on to Course-By-Course)

Cost: \$50

The Grade Point Average may be added on to the course-by-course evaluation. This service includes the course-by-course breakdown, and the U.S. grade equivalent received by the candidate for each course, in addition to a final, overall Grade Point Average of all courses completed. The cost is \$50, added to the course-by-course fee.

ADDITIONAL (ADD-ON) SERVICES

Along with the above evaluations, we offer several additional services. The fees listed below are in addition to the cost of the evaluation selected from above.
